Professional Summary

I am a highly skilled Full Stack Software Engineer with 2+ years of experience in backend development using PHP and Laravel and frontend development with Vue.js, React.js, and Bootstrap. Skilled in building scalable SaaS platforms and RESTful APIs. Comfortable with Agile practices, system architecture, and modern DevOps tools. Passionate about clean code, UI/UX, and continuous learning.

Skills

Backend: - PHP, Laravel, Node.js, REST API, SOAP, OOP, SDLC

Frontend: - JavaScript, Vue.js, React.js, jQuery, Bootstrap, Tailwind CSS, AJAX, JSON

Database: - MySQL, PostgreSQL, SQLite, MongoDB, Database Design, Eloquent ORM, Query Optimization, Stored Procedures, Database Migration, Backup & Restore

Tools & Others: - Git, Agile Methodology, API Integration, Postman, VS Code, Cursor, GitHub, Bit Bucket, Trello, Clickup, Project Documentation, Code Debugging

Note: I am highly skilled in many of the tools and languages listed, and comfortable working with the others.

Work History

Software Engineer   Feb, 2024 – Current
DOOR SOFT – Dhaka, Bangladesh   **Full-time**

- Developed and maintained **Manufacturing Software, School Management Software, and Support Portal Software**, along with working on **SaaS-based systems**.
- Collaborated with development and testing teams to build scalable, high-performance solutions tailored to client needs.
- Effectively managed time and prioritized tasks to consistently meet project deadlines.
- Analyzed customer requirements to propose and implement efficient technical solutions.
- Wrote clean, maintainable code to ensure long-term software stability.

Laravel Developer   Dec, 2023 – Jan, 2024
TDEVS – Remote   **Full-time**

- Worked on **Banking Management Software**, integrating multiple **payment methods, credit card processing, and recharge-related APIs**.
- Participated in code reviews to maintain high-quality standards.
- Updated old code bases to modern development standards, improving functionality.

Web Developer   May 2023 – Jan 2024

ASO – Remote   **Part-time**

- Coded websites using HTML, CSS, JavaScript, and jQuery languages.
- Enhanced user experience by implementing responsive web design and optimizing website performance.
- Developed custom web applications, resulting in tailored solutions for client needs.
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, AJAX, and JSON coding.
